**This Man Is**

DR. IRA W. COLLINS.

a graduate of the largest Osteopathic School of its kind in the world, whom the medical doctors have fought his having a permit and fought him because he didn't have it like a dog in the manger for 5 years.

Wouldn't you rather be an Osteopath saving lives every day and relieving suffering humanity, even if you had to go to jail for it, than to be giving dope which the leading doctors denounce, and carving people up in order to split the fees, when an Osteopath can cure these diseases without any knife or drugs to irritate your stomachs into cancers or exhaust your system into consumption?

Every disease yields to them because they free the nerves to the Blood Vessels and it carries out the impurities, builds up the parts, just like it did when it first made it. And no dope on earth can make any part about you like the Blood can.
